

Did you know that you can recreate your facility in **VIRTUAL REALITY?**

Now it's easy to produce a complete simulation of a complex manufacturing facility... Here's how

- Fully simulate your plant based on your CAD data
- Visualize kinematics and motions
- Create flows
- Review operations directly within the virtual reality environment
- View your entire plant in impressive detail
- Simulate the behavior of PLC programs
- Make changes in real time and modify the layout as you go
- Fully cloud-based

A unique solution that ensures

DYNAMIC REVIEWS

MINIMAL EFFORT AND
LOW INVESTMENT

FLEXIBILITY

Surpass design limits

- Demonstrate machines and facilities to your customers in real time
- Illustrate technical aspects live with high-quality graphics
- Save animation costs using 3D CAD objects that you already have
